EDUCATION

BTECH ECE

Jawaharlal NehruTechnological University,Anantapur
(2019-2023)

12th standard

Narayana junior college,Renigunta,Tirupathi,MPC
(2017-2019)

10th standard

Bhashyam public high school ,Tirupathi
2017

HOBBIES

- CRICKET
- VIDEO GAMES
- COMIC BOOKS
- LISTENING MUSIC
- CHESS
- STORY BOOKS

ABOUT ME

I am aspiring to be a Cloud&DevOps engineer .I have extensive knowledge on ,jenkins,oneclickdeployment,jenkinsCI/CD,git&github,AWScodestarTerraform, Docker&Kubernetics .Proficient in english and highly motivated for challenging task.

TECHNICAL SKILLS

- Python
- Jenkins CI/CD
- AWS Codestar
- AWS Codepipeline
- Azure CI/CD
- Git & Github
- Infra Automation(Chef ,Ansible&Terraform)
- Docker
- Kubernetes

SUMMARY

- I have experience on jenkins CI/CD and jenkins distribution and also experience on one click deployment and jenkins scheduling techni_ -ques.
- Experience on AWS codestar and codepipeline ,MS Azure for CI/CD and also use of S3 , Code Commit and SNS service.worked with azure variables.
- Experience on infra Automation with tools such as chef ,Ansible and Terraform and creation of various instances and installation, of various resources.
- In chef i learnt the installation of stand alone and installation of multi apps through single recipe.
- in ansible learned the configuration and installation via playbook.
- leaned about ansible modules,ansible advanced playbook,ansible way of acheiving CI/CD,variables in playbook ,ansible facts and gathers, ansible handlers,ansible, loop,ansible vault,Ansible role and galaxy
- In terraform learned about the workflow and creation of multiple instances and S3 bucket,vpc. Learned about meta argument life cycle in detail and also about terraform variables and order of precedence of variables
- In containerization learned about the Docker tool . Images and container creation in docker and also about Dockerfiles.

TRAINING COURSE

I completed my DevOps Course at DevOps academy of about 240 Hours of DevOps experience and training.
